1. The Amendment filed 04/03/2007 has been entered. Claims 1, 3-16, 18-23 and 25-32 are pending in this Office action.

2. Claims have been renumbered as shown below, respectively:

Claims 3-16 renumbered as claims 2-15;

Claims 18-23 renumbered as claims 16-21; and

Claims 25-32 renumbered as claims 22-29.

Response to Arguments

3. Applicant's arguments, see Applicant's Remarks, filed 04/03/2007, with respect to claims 1, 3-4, 6-8, 10, 12-16, 19-23 and 32 have been fully considered and are persuasive. The rejection of claims 1, 3-4, 6-8, 10, 12-16, 19-23 and 32 has been withdrawn.

Reason for Allowance

The following is an examiner's statement of reasons for allowance:

4. Regarding claim 1, claim is allowable over prior art record because the cited references either alone or in combination cannot teach or suggest "receiving a second master alignment marker" and "receiving a second slave alignment marker" and

"developing a model of skew based on the first and second master alignment markers and the first and second slave alignment markers" and "developing a model of skew in a slave channel based on the first and second master alignment markers and the first and second slave alignment markers".

5. Regarding claim 13, claim is allowable over prior art record because the cited references either alone or in combination cannot teach or suggest a method for developing a model of skew in a channel bonded communications channel comprising the steps as set forth in the application claim.

6. Regarding claim 20, claim is allowable over prior art record because the cited references either alone or in combination cannot teach or suggest "wherein the control logic comprises: a plurality of skew model blocks for developing a plurality of models of the skew between the master channel and the slave channel; and an arbiter for choosing one of the plurality of skew model blocks".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

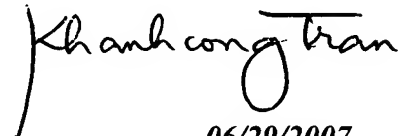

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khanh Tran whose telephone number is 571-272-3007. The examiner can normally be reached on Monday - Friday from 08:00 AM - 05:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
